5. Review by scrolling through the page to view details, summary and routing and status. Note that clicking the three dots to the right of their name will allow you to Preview the timesheet and View Leave Balances without having to click into the timesheet.
6. Once you have clicked into a timesheet, **Return** will take you back to the previous screen. **Details** shows you the weekly detail view as the employee entered the time. This is where the Approver can make corrections to the leave report if necessary. It may be necessary if the deadline for employees to submit leave reports has passed. **Return for Correction** will return the leave report to the employee for correction. Comments can be made to explain to the employee the reason for the return. This is not advisable if time does not allow for correction and resubmission before the deadline. **Approve** will approve the leave report and reduce the leave balance.

**Pay Overtime Indicator**

Approvers of hourly-paid employees can add the “Pay Overtime Indicator” to an employee’s timesheet. If an employee has this indicator on their timesheet, they will be paid overtime when worked rather than accruing comp time.

1. To add the Pay Overtime Indicator under My Activities, select **Approve Time**.
