

Coronary Artery Disease Condition Management Program

For members with BlueOptions® PPO

Blue Cross and Blue Shield of Oklahoma (BCBSOK) is dedicated to helping members with chronic conditions maintain a higher quality of life. You can save money on your out-of-pocket prescription drug costs by participating in a condition management program through Blue Care Connection®. If you (or a covered family member) are affected by coronary artery disease, you can help improve your health and save money on prescription drug copayments by participating in a Condition Management Program.

How does it work?

- Enroll in the Condition Management Program for coronary artery disease by calling 866-670-6681.
- They primarily help members:
 - Take medications properly
 - Get recommended preventive health screenings and services
 - Understand how to manage their condition
 - Prevent unnecessary emergency room visits
- A Blue Care® Advisor (registered nurses and other health care professionals) will work with you and your physician to help identify the best way to manage diabetes more effectively. Advisors will make regularly scheduled telephone calls to promote healthy behaviors, self-care techniques, preventive care and appropriate treatment.

What are the benefits?

- Reduced costs of hypertension and hyperlipidemia prescription drugs
- Reduced retail pharmacy and mail order copayments

	RETAIL PHARMACY (30-DAY SUPPLY)		MAIL ORDER (90-DAY SUPPLY)	
	Regular Copayments	Reduced Copayments	Regular Copayments	Reduced Copayments
Generic	\$4.00	\$4.00	\$10.00	\$8.00
Preferred Brand Name	\$50.00	\$10.00	\$125.00	\$20.00
Non-Preferred Brand Name	\$100.00	\$100.00	\$250.00	\$250.00

This is a voluntary program that offers reduced costs to enrolled members. To enroll in the Coronary Artery Disease Management Program, please call 866-670-6681.
